TO BUSINESS EDITOR:

Perdigão Sells Mococa Agro-Industrial Complex in São Paulo

SÃO PAULO, Brazil, April 2 /PRNewswire-FirstCall/ -- Perdigão S.A. (NYSE: PDA), one of Brazil's largest food companies, today announced that it sold the Mococa agro-industrial complex in the state of São Paulo to local entrepreneurs for R\$6 million. This transaction is part of the Company's program to dispose of non-operating assets and to concentrate investments in regions in which it has a strong presence.

The Mococa complex includes a non-operational meat-packing plant with slaughtering capacity of 20,000 poultry/day; an idle hatchery, with capacity to raise up to 1.4 million chicks/month; and an idle feed plant capable of producing 3.2 tons/month.

Entrepreneurs Valter Netto and Flávio Netto, who operate in the regional live chicken market, purchased the plant in order to expand investments in poultry processing. A partnership contract was signed between the buyers and Perdigão to supply one-day old chicks to Perdigão's productive units in the southern region, and to supply the broiler parent farms in Brotas (São Paulo state) and Arceburgo (Minas Gerais state), where the Chester(R) genetics project is located.

Perdigão S.A. is a leading Brazilian producer and processor of high quality poultry, pork and other products, and has a Level II ADR Program. Its shares are traded on the New York Stock Exchange with trading symbol PDA.
